Integration workshop 2019 schedule

Dates

Friday, August 9, 2019 to Tuesday, August 13, 2019

Organization

The workshop will have three sessions each day from 9-12, 1-4, and 4:30-7:30

Three faculty members will give a series of two lectures. The lecturers and topics are:

Yong Suk Moon:  
*Linear Algebra*

Ibrahim Fatkullin:  
*Multivariate Calculus/Real Analysis, Complex Analysis*

David Glickenstein:  
*Topology*

The sessions devoted to these lectures will start with a lecture of about one hour. Then there will be about 90 minutes for students to work on solving problems and 30 minutes for students to present their solutions to the problems. There will be problem sets corresponding to each lecture series distributed at the start of the workshop and posted on the web. In addition to these lectures and problems solving, students will work in teams on a significant project in which they will learn some new mathematics and present it in a 1-hour lecture at the end of the workshop. There will also be a couple of sessions on practical matters like students’ trajectory through the program and various opportunities.

Several senior grad students will be on hand to assist. They are: Anthony Kling, Lindsay Swift, and Brandon Tippings.

Schedule (subject to revision)

Distribution of name tags and introductions, etc. will start at 8:30 on Friday. There will be coffee and some food every day at 8:30. All lectures will take place in ENR2 S395.
