*See the official undergraduate BA requirements for detailed information regarding Gen Eds (including Natural Science), Foundations (including Language), and Minor requirements.
${ }^{\dagger}$ Undergraduate electives are needed to reach the $\mathbf{1 2 0}$ total and $\mathbf{4 2}$ upper-division units required for the B.A. They may come from any subject. Honors College Freshmen are expected to take an Honors Freshman Colloquium during their first semester.
${ }^{1}$ See a Mathematics Faculty Advisor regarding the selection and scheduling of these courses. Courses used to fulfill the Probability \& Statistics option in the undergraduate major are: STAT 464, 466; MATH 425A, 413, and either 468 or 425B (as the $5^{\text {th }}$ course).
${ }^{2}$ A maximum of 3 units of Statistical Consulting may be applied towards the Core M.S. course requirements.
${ }^{3}$ Graduate elective courses must come from the approved list. See your M.S. advisor for more information.
${ }^{4}$ Advanced statistical coursework may be taken in Fall or Spring, depending on the course. See your M.S. advisor for more information.
${ }^{5}$ See the complete math major requirements for alternative programming courses.
A minimum of 30 units of graduate coursework (graded C or better) is required for the M.S. degree.
