MATH536B - Algebraic Geometry
Tuesday and Thursday, 12:30-1:45pm, Math Teaching Lab, Room 124

Inclusive Excellence is a fundamental part of the University of Arizona’s strategic plan and culture. As part of this initiative, the institution embraces and practices diversity and inclusiveness. These values are expected, respected and welcomed in this course.

Description of Course
This is the second semester of a one-year sequence on algebraic geometry.

Course Prerequisites or Co-requisites
Familiarity with point set topology and rings and their ideals will be assumed. Knowledge of Galois theory and differential/complex geometry would be beneficial, but is not essential. MATH536A would also be very helpful.

Instructor and Contact Information
Jack Hall
office: ENR2 S349
e-mail: instructorfirstname lastname at math dot arizona dot edu
office hours: by appointment.
webpage: http://math.arizona.edu/~jackhall/S2019_math536B.html

Course Objectives and Expected Learning Outcomes
The goal for this semester is to understand the quasi-coherent cohomology of quasi-projective varieties and some of its applications.

Absence and Class Participation Policy
The UA’s policy concerning Class Attendance, Participation, and Administrative Drops is available at http://catalog.arizona.edu/policy/class-attendance-participation-and-administrative-drop.
The UA policy regarding absences for any sincerely held religious belief, observance or practice will be accommodated where reasonable, http://policy.arizona.edu/human-resources/religious-accommodation-policy.
Absences pre-approved by the UA Dean of Students (or Dean Designee) will be honored. See https://deanofstudents.arizona.edu/absences.
**Required Texts or Readings**
You may find that the following texts are helpful.
- *Algebraic Geometry*, by Robin Hartshorne;
- *The Rising Sea: Foundations of Algebraic Geometry*, by Ravi Vakil;
- *The red book of varieties and schemes*, by David Mumford;
- *Algebraic Geometry II*, by David Mumford;
- *Algebraic Geometry (2002)*, by Andreas Gathmann; and
- *Algebraic geometry and arithmetic curves*, by Qing Liu.

Purchasing the above books is not required. A recently developed and fantastic reference is the *Stacks Project*. This is available online at [http://stacks.math.columbia.edu](http://stacks.math.columbia.edu).

**Assignments and Examinations: Schedule/Due Dates**
There is no final exam. There will be several problem sets throughout the semester.

**Grading Scale and Policies**
I will be assigning letter grades. Your grade will be determined from your participation.

Requests for incomplete (I) or withdrawal (W) must be made in accordance with University policies, which are available at [http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete](http://catalog.arizona.edu/policy/grades-and-grading-system#incomplete) and [http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal](http://catalog.arizona.edu/policy/grades-and-grading-system#Withdrawal), respectively.

**Dispute of Grade Policy:** Grades can be disputed up to 1 week after homework is returned.

**Honors Credit**
Students wishing to contract this course for Honors Credit should email me to set up an appointment to discuss the terms of the contract. Information on Honors Contracts can be found at [http://www.honors.arizona.edu/faculty-and-advisors/contracts](http://www.honors.arizona.edu/faculty-and-advisors/contracts).

**Elective Name and Pronoun Usage**
This course supports elective gender pronoun use and self-identification; rosters indicating such choices will be updated throughout the semester, upon student request. As the course includes group work and in-class discussion, it is vitally important for us to create an educational environment of inclusion and mutual respect.

**Classroom Behavior Policy**
To foster a positive learning environment, students and instructors have a shared responsibility. We want a safe, welcoming, and inclusive environment where all of us feel comfortable with each other and where we can challenge ourselves to succeed. To that end, our focus is on the tasks at hand and not on extraneous activities (e.g., texting, chatting, reading a newspaper, making phone calls, web surfing, etc.).

**Threatening Behavior Policy**
The UA Threatening Behavior by Students Policy prohibits threats of physical harm to any member of the University community, including to oneself. See [http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students](http://policy.arizona.edu/education-and-student-affairs/threatening-behavior-students).
Accessibility and Accommodations

Our goal in this classroom is that learning experiences be as accessible as possible. If you anticipate or experience physical or academic barriers based on disability, please let me know immediately so that we can discuss options. You are also welcome to contact the Disability Resource Center (520-621-3268) to establish reasonable accommodations. For additional information on the Disability Resource Center and reasonable accommodations, please visit http://drc.arizona.edu.

If you have reasonable accommodations, please plan to meet with me by appointment or during office hours to discuss accommodations and how my course requirements and activities may impact your ability to fully participate.

Please be aware that the accessible table and chairs in this room should remain available for students who find that standard classroom seating is not usable.

Code of Academic Integrity

Students are encouraged to share intellectual views and discuss freely the principles and applications of course materials. However, graded work/exercises must be the product of independent effort unless otherwise instructed. Students are expected to adhere to the UA Code of Academic Integrity as described in the UA General Catalog. See http://deanofstudents.arizona.edu/academic-integrity/students/academic-integrity.

The University Libraries have some excellent tips for avoiding plagiarism, available at http://www.library.arizona.edu/help/tutorials/plagiarism/index.html.

*Selling class notes and/or other course materials to other students or to a third party for resale is not permitted without the instructor’s express written consent.* Violations to this and other course rules are subject to the Code of Academic Integrity and may result in course sanctions. Additionally, students who use D2L or UA e-mail to sell or buy these copyrighted materials are subject to Code of Conduct Violations for misuse of student e-mail addresses. This conduct may also constitute copyright infringement.

UA Nondiscrimination and Anti-harassment Policy

The University is committed to creating and maintaining an environment free of discrimination; see http://policy.arizona.edu/human-resources/nondiscrimination-and-anti-harassment-policy.

Our classroom is a place where everyone is encouraged to express well-formed opinions and their reasons for those opinions. We also want to create a tolerant and open environment where such opinions can be expressed without resorting to bullying or discrimination of others.

Additional Resources for Students

UA Academic policies and procedures are available at http://catalog.arizona.edu/policies.

Student Assistance and Advocacy information is available at http://deanofstudents.arizona.edu/student-assistance/students/student-assistance.
